#AllAboutYou Personal care sector remained the key driver, maintaining self image an important factor in China.

#DigitalLifestyle E-commerce was 6% in share in Q4, becoming 4th largest sales channel.

TAIWAN

#FMCG recovery Local market demand rebounded because of growing catering and retail industry-good news to FMCG market.

#Growing EC Both food and non-food soared in e-commerce for attracting more buyers continuously, from personal care, such as facial skincare and haircare, to instant noodles, frozen food.

#Aggressive PX Mart PX mart continued to dominate the market for its food categories, especially dairy products, noodles, and snacks.

S. KOREA

#RecessionVibes Uneasy feeling among South Koreans as they continue to weather the recession.

#HealthMatters Oxy & Febreze yet to rebound from recent scandal, further strengthening the need to take better care of health.

#HealthInnovation The emergence of various types of healthy-concept drinks such as tea drink, yogurt drink, sport drink etc.

INDIA

#NoMoneyNoProblem Despite demonetization affecting the economy, outlook still positive, solid

#Rationalize Value growth slowed down among high income households – rationalizing their expenditure during times of stress, looking to bounce back as everything stabilizes

#Demonitization It has been a tough period for major FMCG sectors, household care, personal care, foods & beverages, looking forward to the recovery

SAUDI

#SalaryCuts With the government salary cuts that happened in Q4, the FMCG spends have dipped in Q4 2016.

#Modernization Shopping occasions continue to migrate to Modern format store, starting to make lesser shopping trips

#Promo! Promotions keeps consumers enticed to continue spending, but basket size growth has stabilized.

INDONESIA

#Bounceback After a slower 2015, Indonesia economy is started to bounce back in 2016. This year, Indonesia also enjoyed lowest level of inflation since six years.

#PlannedPurchasing

Consumers are still cautious of their spending in the FMCG sector by reducing their shopping trips. Also evident is reduction of purchase on impulse categories.

#UpsizingIndication

Consumers are also increasing their purchase of large packs, that provides better savings.

MALAYSIA

#LowConfidence Still feeling the pinch on cost of living, spending focused on necessities

#StretchItOut Consumers stretching their usage of non-food products, buying larger packs, taking longer to repurchase.

#Near&Convenient Shoppers moving away from large format and traditional format stores, preferring stores that with better proximity.

THAILAND

#YearofMourning Tourism and entertainment industry to slow down, domestic spending still solid

#Uncertainty Consumers are cautious on spending as new economic activities are postponed, expected recovery soon after

#DigitalFrontier E-commerce on a rise, with huge incremental growth. Still plenty of opportunities to develop.

PHILIPPINES
